SUBJECT: Community Air Protection Incentives-Carl Moyer Program Grant Agreement with
Rocking TN Ranch, LLC to Replace a Diesel-Fueled Crawler-Tractor

Honorable Board:

The Eastern Kern Air Pollution Control District (District) has been awarded Community Air Protection Incentive funds to be used for reductions of criteria and toxic emissions in disadvantaged or low-income communities, as defined in AB 1550 (CAP funds). CAP funded projects must be administered through the Carl Moyer Diesel Emissions Reduction Program (CMP). The CMP provides funding for the voluntary retirement and replacement of eligible high-emitting diesel-fueled equipment.

Rocking TN Ranch, LLC (Grantee) proposed a project that meets eligibility criteria of the District's CAP-CMP Program. Agreement 07-007-2026 will provide up to \$144,085.00 in CAP funds to replace a 1961, diesel-fueled, Tier 0, International Harvester crawler tractor with a new low-emitting, certified Tier IV compact loader. The equipment is used 100% of the time within Eastern Kern for ranching and farming activities.

The Grantee is responsible for any project costs exceeding the District maximum funding amount. The crawler tractor will be permanently removed from service and salvaged once the new equipment has been purchased and placed in service. Staff recommends the project be approved for funding.

Three copies of the proposed agreement, a copy of which is attached, were sent to the Grantee to approve by signature and are expected to be returned to the District prior to the Board Meeting. If any significant changes are identified by the Grantee, the item will be withdrawn and the Agreement will be held to the September 2026, Board Meeting.

IT IS RECOMMENDED your Board approve and authorize Chairman to sign Agreement 07-007-2026 with Rocking TN Ranch, LLC for the purchase of a new low-emitting compact loader.

Sincerely,

Gary Ray, Jr.
Air Pollution Control Officer
